** Skipping a payment will extend the length of the loan. Interest will accrue and will decrease the amount of funds applied to the principal from the next payment. Your loan must be current to qualify and could not have participated in a re-write or deferment within the last 6 months and/or have made at least 6 monthly payments. Skip-a-pay cannot be used for VISA, first mortgages, second mortgages, and/or home equity loans or lines of credit. Other terms and conditions may apply. In the event of a GAP claim on your loan, any more than two skipped payments will not be covered under that claim. If GAP was purchased through another institution, please see their contract for details.*

Skip a payment fee is being waived due to the COVID-19 Pandemic.
